Fei Wang

Computer Science, University of Waterloo '31 · Toronto / Waterloo

wangtszfei@gmail.com github.com/MossyFish

EDUCATION

University of Waterloo
Honours Computer Science (Co-op) · Sept 2026 – May 2031

William Lyon Mackenzie Collegiate Institute
AP + SHSM in ICT · Sept 2022 – Jun 2026

EXPERIENCE

Quantitative Research Intern
Century Frontier Asset Management · Shenzhen · Jul – Aug 2026

- Built a point-in-time backtesting pipeline (Python, pandas) to remove lookahead bias in LLM-driven equity research.
- Benchmarked 9 LLM architectures across 104 tickers to separate real predictive signal from model confidence.

Research Contributor & Software Engineer Intern
Krembil Research Institute, World Community Grid · Toronto · Mar – Jun 2026

- Contributor on Catrin, a database of about 4 million transcription factor to target gene associations from 9 sources (manuscript in preparation).
- Built the full-stack portal that makes the unified dataset queryable for researchers.

Machine Learning Research Fellow
Non-Trivial Research Fellowship · Remote · Mar – Aug 2025

- Trained and evaluated a PyTorch classifier that tells real speech from AI-synthesized speech.

Vice President, Director of Operations
Code 4 Tomorrow · Remote · Apr 2021 – Present

- Ran operations and curriculum for a nonprofit coding program with 400+ students across 20+ courses.

Team Captain, President
Mackenzie Cybersecurity Team · Jun 2025 – Jun 2026

- Captained the team to a national #1 finish in CyberTitan, Canada's largest cyberdefense competition.

Founder & Host

Off Script, Waterloo Tech Week · Sept 2026

Founded and hosted an event with 120+ registrations.

PROJECTS

Physical Studio

Python, React, Three.js, Docker · Best Use of Vultr, Hack the Valley 11

Turns a prompt into an animated 3D build guide for hardware projects. I built the MCP server that lets an LLM design from a library of measured parts and check its own design for collisions.
github

Submerge

QML, GLSL, Qt 6, Python

An animated deep-ocean koi theme for KDE Plasma with about 1,290 downloads on the KDE Store, including the shaders and a live system HUD.
github

Doppel

Python, FastAPI, Elasticsearch · Hack the North

Real-time phishing detection that scores new TLS certificates from the Certificate Transparency stream.
github

Schedule Share

Next.js, Firebase, Gemini API

Schedule-sharing app with 20+ active users and screenshot-to-calendar parsing.
github

Bing Bang Dream Adventure

Godot, GDScript · 2nd Place, Horizons Polaris

A rhythm game synced to custom IMU flick controllers.
github

AWARDS

- Best Use of Vultr (MLH), Hack the Valley 11
- National Champion x2, CyberTitan VIII & IX
- National Finalist, 2nd in Canada, CyberPatriot 17
- Gold & Silver, IT Systems Networking, Skills Ontario
- 1st Place, Canada, Mirai Project: Technology Innovation in Healthcare

SKILLS

Languages & frameworks: Python, Java, C, C++, C#, TypeScript, JavaScript, HTML/CSS, SQL, R, React, Next.js, NumPy, Pandas, PyTorch

Tools: Git, Docker, Jupyter, GitHub Actions, Postman, Linux, Bash
